CONSUMER INFORMATION

EVENT TELEMETRY

Appointments will be 15 minutes approximately.

Technician: Emily Ashburner

When you have been booked to have event telemetry monitoring with Dr Nicholas Collins' technician Emily Ashburner you will receive notification of your appointment once a monitor is available.

The technician will explain the technical aspects of the monitor on the day of placement of the machine.

You will need to:

- Allow 15 minutes for the initial consultation and explanation of the use of the monitor
- Wear loose separate clothing (ie pants/shirt or skirt/shirt). Dresses are not ideal for the placement of the monitor.
- You will be bulk billed for the use of the monitor.
- A \$50 cash only refundable deposit is required. Once you return the machine, the \$50 will be refunded (please bring your deposit receipt back with the machine so that your money can be refunded and signed off).
- You will receive a return date (approximately 4 weeks) and this will be expected to be adhered to. You will forfeit your deposit if the machine is not returned by the return date.
- When you return the machine, there is no need for an appointment. Simply return the machine during business hours (9a.m to 1pm or 2pm to 5pm) at 58 Cleary Street, Hamilton NSW 2303. You will receive your deposit on this day.
- If there are any difficulties in returning the machine please contact our staff to ensure we are aware of this. Our telephone number is 0249621811.
- Please be aware that other people are on the waiting list for these monitors, so your prompt return of the machine is very much appreciated.
